Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner telephoned Mr. Swanson to discuss a potential new matter issue with the specification and certain claims. It was suggested to Mr. Swanson to insert certain limitations disclosed in the provisional applications in the instant application to obviate any potential issues of antecedent basis. The limitations were basically the particle size ranges of less than 5 microns, 0.2 to 5 microns and 0.2 to 3 microns. Mr. Swanson agreed to all the suggestions and also requested correction of a typographical error in claim 75 and addition of two new claims, claiming the thickness of the film. It was decided to have the amendments done by an Examiner's amendment (attached).
